Commercial Landing Page

Locations

04

Transervicios is located all around Mexico and the United States. Transervicios counts with 9 terminals from south to north.

- Mexico
- For more Cd. Juarez is the main base, here are our offices for the support operation of the total.
- USA
- They provide maintenance for the units and schedule of loads.

Transervicios this is the landing page for the clients of transervicios / JAK it basically shows the companies services and the commitment with its clients and employees

Design

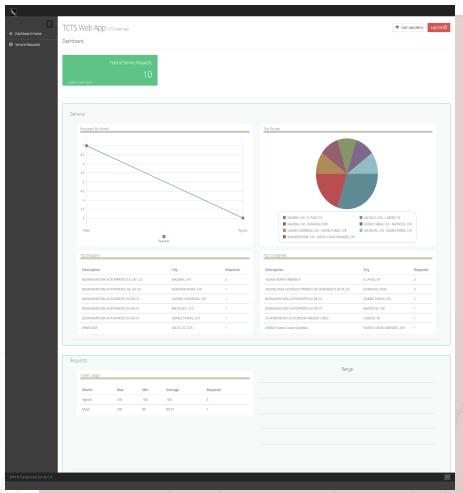

It's a modern one page design, with the conjunction of css3 animations and svg details, also have some special features when you use it with your phone or tablet some elements change its perspective 3d kind, the menu is a modern whole page 5 button menu which jumps you to the area of your interest, also the background changes every once in a while displaying new pictures

Photographies

The photographic concept was made by me and it was inspired by the Cremaster pictures of the conceptual artist Matthew Barney, I was in charge of the locations and logistics for them, with the help of an awesome photographer we get to make this beautiful pictures

TCTS

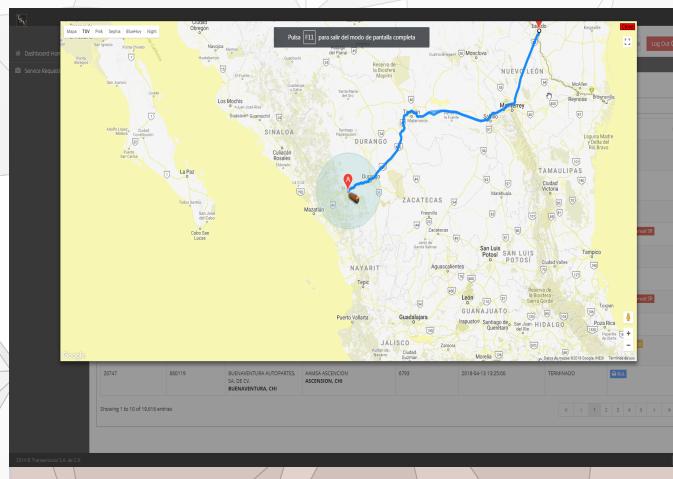

TCTS is a platform for the Clients so they can schedule , book and track on real time their trips , and the stop offs. It's also an API and SMS service available for manager and drivers

Frontend

It's an angularjs web, with it's wizard kind of stepper, its easy to book trips, the landing page displays you a KPI with the most interesting data about the client trips, it also has the list of trips schedules through the time since the beginning of the used with the key infomation of the trip and the current status of the travel(Real time WS longpolling), also displays the map with the current position of the unit

SMS

It's a service for clients and drivers which sends notifications SMS everytime something unusual happens, or when the trip starts or ends.

REST API for clients

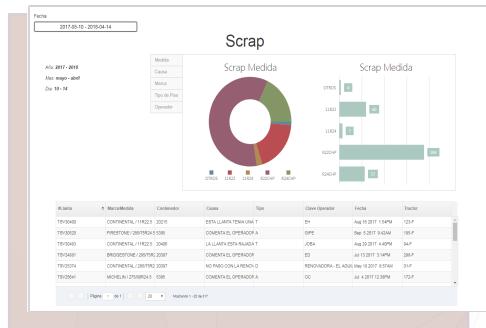

The client have access to it's information through our REST API, just with the token assigned to the client he can make different request to any kind of information that it's trips generate

The screenshot shows the Llantas Frontend application interface. At the top, there's a navigation bar with links like 'Reservas', 'Consultas', 'Movimientos', 'Cotizaciones', 'Diferencias', 'Sociedades', 'Administración', and 'Notificaciones'. Below the navigation is a search bar with fields for 'Fecha' (Date) and 'Número de Serie' (Serial Number). The main area is titled 'Inventario' (Inventory) and displays a bar chart showing 'Disponibles por almacén' (Available in warehouse) for categories like 400JZ-NVA, 400C-NDO, 400C-DAL, 400C-XTA, and 400C-REN. Below the chart are several tables for different tire models:

- 400JZ-NVA (1)**: Includes rows for 11R22, R24CHP, 11R22, 11R22, 11R24, Total: 21.
- 400C-NDO (2)**: Includes rows for 11R22, R24CHP, 11R22, 11R22, 11R24, Total: 41.
- 400C-DAL (3)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, 11R24, Total: 42.
- 400C-XTA (4)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 8.
- 400C-REN (5)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, 11R24, Total: 734.
- 800JZ-AVA (7)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, 11R24, Total: 45.
- 400CH-NVA (13)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 4.
- TCR**: Shows a table for 400TO-AVA (39) with rows for 11R22, R24CHP, 11R22, Total: 4.
- 400CH-REO (14)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 82.
- 400TO-REO (31)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 87.
- 400CH-GAL (15)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 68.
- 400TO-GAL (32)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 2.
- 400LA-GAL (9)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 198.
- 400LA-XTA (10)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 77.
- 400LA-REN (11)**: Includes rows for 11R22, R24CHP, 11R22, 11R24, Total: 117.
- DGO**: Shows a table for 400OU-AVA (17) with rows for 11R22, R24CHP, 11R22, Total: 1.
- 400OU-REO (18)**: Includes rows for 11R22, R24CHP, 11R22, Total: 11.
- 400LA-REO (20)**: Includes rows for 11R22, R24CHP, 11R22, Total: 2.
- 400LA-GAL (21)**: Includes rows for 11R22, R24CHP, 11R22, Total: 2.

Llantas

Llantas is a platform for the tire workshop and warehouse, you can make inventories, check tire availability, tire usage and buy new tires and soles directly to the client connecting with the Shop API

Frontend

It's an angularjs webapp, it has all the tools need for managing the workshop and it also works on ipad and mobiles

Backend

We use a MVC php inhouse made framework for it and interconnects with different APIS and areas of the company

This screenshot shows a detailed view of tire availability for model 400JZ-NVA. It includes a table for '400JZ-NVA (1)' with rows for R24CHP (3), R22CHP (14), 11R22 (2), 11R24 (2), and Total: 21. Below this is a table for '400JZ-NVA (26)' with rows for R24CHP (3), R22CHP (2), and Total: 5. The bottom section shows a table for '400JZ-NVA (27)' with rows for R24CHP (1), 11R22 (16), and Total: 17.
